Vision

Nav Jagriti aspires to the value of individual and collective efforts for integrated development and it also inspires to ensure better conditions for the people at large and disadvantaged and vulnerable section of the society in particular.

Mission

To capacitate and empower women in particular and poor people in general to fight for their rights and get them organized to fight against the menace of water logging. It also aims to bring the better living opportunities and basic amenities for the general mass in the flood prone and water logged area.

Goal

To establish Local Self Governance through Sustainable Community Based Institutions.

<p>2007 Alternative Energy (Solar Application) and Alternative livelihood through Sustainable Land Management Practices for Musahar community in North Bihar were one of the most successful interventions of the year.</p>	

From Secretary Pen

I am happy to present the annual report for the financial year 2014-15 of Nav Jagriti Which is also well know as NJ, This year NJ has completed its 23rd years in serving the community.

At the beginning, I would like to thank our funder's, partners and volunteers for their unstinting support and guidance.

The NJ is committed in making a difference to the lives of the communities, We are serving particularly the disadvantaged and underprivileged people of the society and focused on supporting initiatives that will make a sustainable impact.

We persuaded that knowledge and technology are powerful tools which can be effectively deployed to address many of the development issues faced by Vulnerable and urban communities of Bihar.

NJ has achieved a expected landmark in the areas of Disaster Risk Reduction, child protection and participation, livelihood promotion, education, women empowerment, health, nutrition, Hygiene and Sanitation, and establishment of Rehabilitation home for the male beggars and developing climate change resilience strategy and flood warning system.

This year has seen many achievement for NJ, but I would like to share key highlight which we believe have had significant impact on our beneficiaries.

In this year Nav Jagriti initiate their implementation in Urban slums of Patna with the support of Save The Children under "Providing safe water and sanitation facilities in Urban and Rural India" Project. The main objective and aims are creating awareness among the communities, school teachers, students and other stakeholders to create hygienic sanitation as well as to make alternative arrangements to them.

Nav Jagriti with the support of Save The Children initiated an Information communication Technology (ICT) based DRR Project " Using connectivity to build Resilience of children and their communities in India" which aims to build resilience of vulnerable communities in selected villages of Khagaria district of Bihar.

With the support of CASA, Nav Jagriti started a livelihood project in flood prone area of Supaul district of Bihar to build resilience among the community.

Finally, I would like to personally thank the staff, external consultants, funder's, volunteer as well as the many partner organizations of the Trusts for their continuing teamwork and collaboration with the Trusts. I would also thanks to our funder's for their continuing guidance and support.

Jitendra Kumar

1. Genesis and Continuation

Nav Jagriti was formed by a group of educated and concerned youth of Parsa block in Saran district of Bihar who were facing the wrath of flood and water logging in their district since years. It was in 1991 when these youths started their struggle against flood and water logging systematically thereby forming an informal organization "Jal Jamao Virodhee Sangharsh Samiti" (A Committee against Water Logging) at Saran District. This was a platform to highlight the consequences of flood into water logging in the district and beyond.

Later on this group needed some support and donations to take up larger issues for the community to serve it in a better way. This need gave birth to Nav Jagriti (NJ) in 1991 which was registered in 1993 under Indian Societies Registration Act (XXI), 1860. Since then it is serving as non-profit, non-political, non-religious and philanthropic organisation.

As of now, NJ has emerged as one of the pioneer organisations in the field of Education, Child Rights, Disaster Risk Reduction, Women Empowerment, Health, Rehabilitation Home and Livelihood for the Ultra-poor beggars, deprived and downtrodden communities living under financial hardship and other social problems.

Thematic Areas for Intervention

Since the inception of Jal Jamao Virodhee Sangharsh Samiti, establishment of Nav Jagriti and our joining the movement of Barh Mukti Abhiyan on acute problems related to floods, NJ has created a solid base to mount an efficient and effective response in the following thematic areas.

1. Disaster Risk Reduction and Climate Change
2. Child Protection, Participation & Sponsorship
3. Livelihood Promotion and Women Empowerment
4. Education and Skill Development
5. Health and Nutrition
6. Water, Hygiene and Sanitation
7. Social Protection and Rehabilitation
8. Training, Capacity Building and Workshop

2. Milestones in key thematic area (2014-15)

A. Disaster Risk Reduction and Climate Change

Vulnerability and development of Climate Change Strategy :

Nav Jagriti team conducted focus group discussions (FGD) with the residents of higher income group (HIG), middle income group (MIG) and lower income group (LIG) at 12 identified locations in the four zones (i.e. North East - Ward Nos.11, 16, 32), North West (Ward Nos. 2, 21, 10), South East (Ward Nos. 31,39) and South West (Ward Nos. 8, 27, 24)) of the Saharsa town, from 23rd to 28th of July 2014. The FGD format was shared with GEAG, Gorakhpur and the FGDs were held based on various assessment parameters with the different social groups in four different zones of Saharsa town. The key findings of the discussions are as follows:

3 FGDs were organized separately i.e. one each with HIG, MIG and LIG in each zone of the town, hence total 12 FGDs were organized in the four quadrants of the town. The residents of the town were classified into HIG, MIG and LIG based on their resources like big, medium and small dwellings, household amenities being used by them (like RO water purifier, water filter, four wheeler, motor cycle, LPG connection, fridge, TV, computer, washing machine etc) and their occupations (like small, medium or big businessmen,

medium and petty traders, service and daily wages labor etc). During the FGD, each income group discussed separately the issues pertaining to their group and also about the locality they were living in. As stated earlier, these discussions were held in 12 locations in the town.

It was found that the population of MIG tops in the town followed by LIG and the HIG in that order in all the four quadrants of the town. The LIG abundance was reported in the north-west zone of the town.

Workshop on the Urban and Climatic Issues of Saharsa :

Having completed this exercise and finalizing the findings of the vulnerability study, Nav Jagriti requested the Chairman of Nagar Parishad to call the meeting of ward members, related officials and concerned civil society at Nagar Parishad Hall, Saharsa on the 10th September, 2014 to discuss the findings. Staff of GEAG had very kindly attended this meeting. At his request almost all the Ward Members, Chairman of the Nagar Parishad, Executive Officer and the City Manager along with many concerned citizens of the town participated in this meeting. A report was put before the participants and their opinion was sought over the issues identified during the study. The consensus that emerged, listed following problems in the town that needed immediate attention. These are Water logging, Drainage, Solid Waste Disposal, Drinking Water, and Lack of Toilets etc.

Climate Change Scenario of Saharsa :

The results revealed significant wide warming in both maximum and minimum temperatures over the last century. However, the changes are not equal for all the months and season spatially and temporally. Trend in temperatures showed a much higher degree of spatial coherence and statistically significant warming, reflecting increases in both maximum and minimum temperatures.

Future Approach for Saharsa Town :

Given the background of Saharsa town it is obvious that any entry to tackle the problem here will have to be based on detailed surveys, talking to people, local needs, and assessments of constraints and availability of resources. As of now the resources, long term planning, existence of a favorable bureaucracy, location and ownership of landfills and possible drainage routes of storm water everything is in disarray. The situation demands intervention but the action points are not distinctly visible. One needs a careful assessment and analysis of the above mentioned facts and then only anything tangible can be suggested. However, having held meetings in many wards of Saharsa with the ward members, officials of the Nagar Parishad, members of the civil society and the common people, following points emerge,

Resilience Planning and Strategy for Saharsa :

Nav Jagriti conducted the vulnerability analysis of Saharsa town which indicates that the problem of non-functional drainage, poor solid waste management and water logging have wider impact on the infrastructure of the Town. Nav Jagriti suggested about the key sectors, groups that are vulnerable. It was recommended that the areas to strengthen the resilience and necessary actions to address them.

Based on the vulnerability analysis of Saharsa, a resilience strategy for Saharsa was developed which recognizes that responding to climate change will require integrated courses of action to address a combination of institutional, behavioural, social and technical issues.

Community Based Flood Early Warning System & Disaster Risk Reduction

Nav Jagriti in collaboration of IUCN was implemented a project on developing community based Flood Early warning system in 8 villages of Mansi and Khagaria block of Khagaria district and 2 villages of Munger block of Munger district of Bihar. Under this programme Priests, Imams, PRI and community has been sensitized about their role and responsibility while spreading the message of any possible disaster likely to be faced in future.

Identify of the danger level were done by the village community, pillar were digged and demarcation of danger level were made which will helps the Priests and Imams and PRI to warn all the villagers before the flood hits the village.

Audible diametrical range siren have been installed in 8 Villages in view of disseminating early flood warning alert to the community which cover the area of one kilometer.

Different task forces were formed and get capacities on different available sources of Information which may be used for flood forecast. Identified youths get training on sending mass mobile messages. IEC materials were developed and distributed among the community.

Using Connectivity to Build Resilience of Children and their Communities in India : Nav Jagriti with the support of Save the Children initiated a project on DRR entitled 'Using Connectivity to Build Resilience of Children and their

Communities in India" in 25 villages of Khagaria district. The proposed initiative aims to build resilience of vulnerable children, their families and communities in selected areas of India through an integrated approach using a DRR and social protection framework. Information Communication Technology will form a key part of this programme and will be used to deliver and connect DRR and social protection as well as supporting components. In the first of phase Navjagirti carried out Risk Assessment at community and school level and Identified and formed of Children Groups and Child Protection Committees in 25 project villages under 2 blocks of Khagaria district Bihar.

B. Child Protection, Participation and Sponsorship

Nav Jagriti in collaboration of Plan India is being implementing the project on child right and Child protection in 22 villages and Parsa, Maker Blocks of Saran District of Bihar. under the programme the sensitization of Children, PRIs, ICDS, Teachers were carried out about the child marriages, child labour, child trafficking, Female feticides and child abuses through meetings, orientation, awareness drive, formation of children right and child protection communities, Solidarity events and etc.

Under this programme children group and child protection committees of 179 members has been formed to raised their voice and for active participation of children in community development related activities.

At many platform the awareness has been done on providing similar values to girls and boys child without any discrimination among them. Children had a interface meeting with PRIs representatives, teachers and ICDS workers to discuss their problems of day to day life and to get the possible solutions.

Bachapan Diwas were celebrated in 37 ICDS center which cover 13 villages of Saran District and Approx 1000 children and adults actively participates. Under these activities Child friendly environment were created at ICDS centers. It was observed to aware the children and their parents about early childhood education. It was celebrated among children and their mothers to encourage children and

enhancing their morale letting them their importance. Children were encouraged to recite the poetry, counting number, identifying colours etc. ICDS centers were decorated and parents were made aware about.

The lactating women has been educate about the mother and care givers about the importance of exclusive breast feeding, complementary feeding and balanced diet for children after completing six months according to developmental milestones to address the issue of malnutrition. They learnt about safe delivery, institutional delivery, Immunization and Nutrition and Malnutrition. They were also oriented about the ways to identify the cases of malnutrition and to get maximum nutrition from locally available foods.

C. Livelihood Promotion and Women Empowerment

For livelihood promotion of underprivileged and marginalized community, Nav Jagriti formed different types of community Based organization i.e SHGs, Farmer clubs, JLGs etc at mass level on regular basis though years.

Nav Jagriti in collaboration of Oxfam India, Plan India, CWS (Caritas) is being implementing the project Kishan Club in Saran (Parsa and Maker blocks), Samastipur (Khanpur Block) and

Sitamarhi (Runni Saidpur block) Disrtcts of Bihar. 36 farmers clubs were formed and in this year they were facilitates and advice by Agriculturist and marketing professional about cultivation of vegetables and creating a market for big trades that would help them to earn their livelihoods. The Kishan club members decided to conduct meetings twice in a month and also contribute some amount to federation for its functioning.

Nav Jagriti promoted Kitchen Gardening in collaboration of Oxfam India with 200 families for saving of income and availability of healthy and nutritional food to the marginalized. The indigenous / certified seeds of Lal Saag, Hara Saag (Choulai), Spinach (Palak), Carrot, Radish, Peas, Turnip (Salgam), Dhania Pumpkin, Bitter Guard, Coriander (Dhania), vegetable varieties of seeds were distributed to community.

Awareness meetings with villagers on different Indian legislation issues, schemes and others resources : Nav Jagriti organized 135 awareness meetings in collaboration with CWS the 17 wards of 10 villages on different Indian legislation issues, schemes and other resources. The major agenda of these awareness meeting were creating awareness among the community about different government schemes, legislation like livelihood schemes, social security related schemes. At the same time one to one interaction with related govt. official and stakeholders were done. IEC material on different schemes was used to mobilise community. 535 families take return back their MANREGA job cards from middle man in own possession.

Facilitation of formation of Grain bank at individual and community and group level for disasters response: Food security is one of the major concerns during any emergency. Grain banks are effective reserve to cope-up the food crisis during the initial phase of any emergency. It was also observed that it is in the traditional practice of families. The need of food grains were realized for flood periods while assessing people's mobility and their livelihood.

Exposure visits with the focus of livelihood learning for representatives of peoples groups: It was planned

that representatives of the people's groups will go on an exposure visit to a similar area prone to disaster for learning & livelihood experiences, strategies of marketing & value addition to their existing livelihood. In this regard Nav Jagriti has conducted an exposure visit of 105 farmers in three groups. Farmers visited different flood prone villages, like Rajkot, Barar of Mharajganj district utter Pradesh (UP), Momadpur, Boropatti Chukhaji Chondali, Rajendera agriculture university pusa Samastipur district and Jhitkiya Shear Ghati village of Gaya district and observed the good practices of cultivation and meet agriculture scientist discussed some sustainable agriculture they are visit paddy cultivation, producer farmers group kitchen garden nitration garden seeds banks make agerbati stick, Poultry, goatery etc. They also learned here how to develop seeds, plant and farm vegetable in flood and drought prone area. This exposure visit has been organized for four days. Every day after the visit they share to each other what new things they learned today and planed that how it can be implemented in their area.

Women Day Celebration : On 8th March 2015 Women Day organized at Vanaspatti Nav Jagriti Premises to create sensitization among the women, who holds up half of the sky.

Training on Gender and Animal Husbandry : The people discriminated between son and daughter. The parents give better education, food and other amenities to their sons and curtail the facilities of girl children thinking that girl child has to go her husband house after marriage. Thinking above fact, training program on gender and animal husbandry organized from 29 to 30 September 2014. 33 women participated in it.

The Participants were village people including members of self-help groups, farmers club, youth and adolescent girls and the trainers were the Para-vet trained by the Nav Jagriti.

D. Education and Skill Development

Vocational training

Nav Jagriti in collaboration of SKN Netherland is being implementing the vocational training on stitching and tailoring at Vanaspatti, Runnisaidpur block of Sitamadhi district. The adolescent girls and women are getting vocational training. The training has been design in two phase were in first phase the training is being imparted on manual machine and after successful completion and get perfection on manual machine the trainee has been send to second level of training were they are being trained on industrial sewing machine. The Beneficiaries are being also encourage and supported to starting their own business either at nearest market places or at their home to support in their family income.

Nav Jagriti imparted Computer training (PGDCA) to 14 adolescent girls .They are being trained at Ideal computer institute and been provided with study materials and other logistics as well.

Nav Jagriti imparted Computer training (PGDCA) to 10 adolescent boys . They are being trained at Ideal computer institute and been provided with study materials and other logistics as well.

17 adolescents boys from our operational are being given Mobile repairing training .This training will help adolescent boys to fetch a good job and secure their future. They have been provided with all kinds of mobile repairing kits in order to make the training more fruitful.

Nav Jagriti imparted organized mason training to SHG family at Paschim Thahra (Qasba

maker).Total 30 participants(SC Family-22) have been trained. They were trained to construct a model toilet during the training period and henceforth a new model toilet has been constructed at Paschim Thahra School, Saran District.

We have started Soft Toys & Embroidery training for girls at Saguni. 14 girls out of 25 belongs to Sc Family. They are being trained so that they can earn their livelihood and help them in their income generation.

Learning Centers :

Nav Jagriti in collaboration of Plan India running 11 learning center in Saran District of Bihar. Nearly 120 students have enrolled and we are also getting more requests from children. All these children were dropouts or they haven't gone to school, children belong from below poverty line categories, etc. The living conditions of these families are highly pathetic and vulnerable. Nav Jagriti has identified and enrolled them in the center. After successful completion of duration the children are being send to Government school for their future studies.

Siksha Jankari Mela :

Nav Jagriti organized Siksha Jankari Mela among 3653 school children at 29 locations to aware them about different government schemes related to education.

Orientation of Student Mother Committee :

Nav Jagriti organized a SMC orientation, in which the roles and responsibilities of students and mothers were discussed in effective administration and developing school development plan. They were also oriented about keeping school violence free; maintain hygiene and proper implementation of different government schemes like Cycle Yojna, Poshak Rasi, Scholarship, MDM etc.

Aao Pados Ko Jane :

Nav Jagriti organized Aao Pados Ko Jane, excursion and knowledge tour of children, 11 times in a year in

which 999 children from all 22 villages participated. The objective of the exposure is to make them familiar with their surroundings and historical monuments. Children visualize and hands on experience of the important places. Children visited museum, Ashoka pillar and other different monuments. The exposure helped them to enrich their knowledge about the glorious past of India. It was the learning by observation and interface for children.

Annaprashan ceremony :

Nav Jagriti observed Annaprashan ceremony at 18 ICDS center of project area. 71 children who have completed their six months were fed with

complimentary diet. Lactating mothers learnt about the importance of complimentary feeding after completion of six months. It was emphasized that exclusive breast feeding till six months is vital.

Celebration of Annual day at Sankuls including sports competition.

Nav Jagriti organized Sports Day at 14 different villages in which total 1916 children participated. A part from sports activities the children participate in activities painting competition (CHITRANKAN), Nukkad Natak on Right to Education and Mid Day Meal Scheme, SIKKSHA DIWAS, Paryawaran Diwas, Winners were awarded with medals and trophies based on their performances.

Training of teachers and staffs on library management at District level, BAL SAMELLAN was organized in 14 Sankuls with the support of

Education department. Matrix Mela was organized in 8 schools with the aim to provide opportunity to children in express their unseen creativity. 5457 Children participated in different sports, and cultural activities. The children also look part in math marathon through which their critical thinking and problem solving skills could be enhances.

Panchayat Level Meeting at Runnisiadpur block for NFE : In India, Panchayat is considered as unit of governance as people choose Ward Member, Panch, Sarpanch, Mukhiya, Block and District level representatives through voting, who are supposed to work for the benefits of society. In view to promote educational activities in their area 700 people participated in these meetings at various NFE centers.

E. Health and Nutrition

Breast Feeding Awareness :

Breast feeding week was organized from 1 to 7 August 2014 in 22 villages of saran District. To aware women about importance of breast feeding and its benefits, meetings and consultation were also done

with pregnant and lactating mothers, adolescent girls, SHG Group and Munna Munni Manch, Children Club member, partner staff and youth representative participated in it. A rally was also organized by involving children and women to disseminate.

World Aids Day :

World Aids Day was organized on 1st Dec 2014, Children disseminated the awareness messages

through rallies and paintings about AIDS and its prevention. Nukkad Nataks (Street Plays) were organized in 22 villages. uses of different family planning method, Menstrual hygiene, Adolescent Reproductive & sexual health, HIV/AIDS, life skills etc. were demonstrated in 5 different villages.

F. Water, Sanitation and Hygiene

Discouraging Open Defecation :

In the year 2014-15, 684 triggering exercises conducted in 678 villages of 115 Panchayats of 7 Blocks of Gopalganj district of Bihar. The objective of triggering exercises was to discourage the open defecation and encourage the community to adopt hygiene and sanitation practices. The triggering exercises conducted through mapping the problem areas, Input and output calculation, linkage diagram

of fiscal-oral transmission route, Health and non-health benefits and demonstration of Government prescribed low-cost options to enable them choose the right design of toilet for their economic status. During these exercise 30000 demands have been generated and 898 low cost toilets constructed in this quarter. During the course of work community mobilization activities carried out for the construction of individual household toilets and its uses.

community level follow up in 104 Panchayats of 7 Blocks of Gopalganj district was done, with the help of participatory exercise the community visualize the ill effects and disgust of open defecation in their respective areas.

Global hand washing day was celebrated on 15th October 2014 with the support of district education department at Government Basic School, Thawe and S.S. Balika High School, Gopalganj and at Primary school, Nala Road, Patna with support of Save the Children where students from five government school were participated.

Open defecation free Villages :

Nav Jagriti has been working for making open defecation free villages in Gopalganj in year 2014-15. A village Takiya Yakub of Chauraw Gram Panchayat of Gopalganj Block and revenue village Indarwa Abedullah of Indarwa Abedullah Gram Panchayat of Thawe Block declared as Open defecation free villages. The achievement had been celebrated on 2nd October 2014 with the support of district administration. District Magistrate, Superintendent of Police, DDC, ADM, SDO, DEO, DPO-ICDS, EE-PHED, BDOs and MGNREGA-PQs of concerned Blocks, Mukhiya of concerned Gram Panchayats, and Social leaders of villages were participated.

Safe Water, Sanitation and Hygiene services in Urban Slums of Patna

Since June 2014, Nav Jagriti in collaboration of Save the Children had worked on WASH issues in 10 slums of Patna i.e. East Lohanipur, Ambedkar bhawan (Nala Road), Kamla Nerhu Nagar (Adalatganj), Yarpur Domkhana, Chitkohra Under

Over bridge, Ambedkar Bhawan (Ashiyana More), Ram Ji Chak, Nach Bagicha, Shivpuri railway line, Nerhu Nagar.

Renovation and Construction of toilets and Hand pumps :

Nav Jagriti facilitated the renovation cum construction of 5 community managed toilets at Ambedkar Bhawan-Nala Road, Yarpur Domkhana, Yarpur Colony, Jagjeevan Nagar Chikohara under Bridge and Ambedkar Colony-Ashiana. Nav Jagriti had been completed the various types of construction works like repairing of Hand pumps, development of hand washing stations, cleaning of toilet chamber and tanks, fixing of new doors, water connection at toilets, tiles fitting in toilets, development of incinerators etc.

Five new hand pump were fitted and installed with raised platform and bathing room in Patna Slums area. A part from these construction and renovation work,

Nav Jagriti Installed 2 Hand pump raised platform and 2 community managed flood proof at Khanpur block of Samastipur District.

Water Quality Testing :

For ensuring the better quality of safe drinking water Nav Jagriti collected water samples from selected community sources of 10 slums and the samples have been send for test at State Level Water Testing Laboratory, Patna. The key 14 drinking water parameters were assessed.

Safe water drinking awareness drive have been done in schools and community about the finding in their drinking water and also aware about the importance of water quality.

Orientation of adolescent girls on Menstrual Hygiene Management (MHM) :

Nav Jagriti conducted total 37 orientations programmes on menstruation hygiene management for adolescent girls in schools and community level. During the orientations menstruation cycle, hygiene management during mensuration, length of mensuration, irregular mensuration, and myth about mensuration, infections occurred during mensuration and their cause and treatment. Nav Jagriti distributed sanitary napkins and dettol soap among the participants.

Awareness Generation through mid-media and IEC options :

Nav Jagriti organized awareness generation on water, sanitation and hygiene during 20th to 24th Dec. 2014 in each slum of Patna. Water, sanitation and hygiene awareness campaign

was done through community meeting and street plays. Apart from this Nukkad Natak on issues of sanitation, maintenance of community based infrastructure, personal hygiene; solid and liquid waste management and illustrated the WASH posters in the slums of Patna.

Hand washing Demonstration :

Nav Jagriti conducted demonstration on hand washing practices for 150 times with community, schools and Aganwadi centers at different locations of Patna districts. Hand washing Demonstration was also done through flex and stickers distributed among the participants.

It has been find that due to above mentioned interventions community attitude towards hand washing practices has been changed after defecation

and before meal. Children are also acting as agents of change, they disseminate the messages of hand washing in the families.

Orientation of School health water and sanitation groups :

To promote WASH related behavior within the children, Nav Jagriti adopted a unique strategy in schools, WASH group has been formed which comprises of teachers, girls and boys. This group were provided prize if they found clean on the day and on daily basis one children identification has been done who has to take bath, cut their nail, wash mouth etc and also care about the cleaning of school premises.

Nav Jagriti formed 10 school level water sanitation and health groups in 10 different slums area schools of Patna and organized 20 orientation

programs to mobilized them.

WASH- Health Campaign was celebrated in all the schools of 22 villages. Quiz, Drawing & Painting Competitions, Pollution related Queries, Speech & Debates, Group Discussions were organized and 20 Students did the demos of Hand Washing with 7 steps.

Nav Jagriti organized Global Hand washing day in four villages of Saran district and one location at Patna in which rallies, meetings, street plays were organized by children group, speech created mass awareness among children and community about importance of hand washing. Demonstration was done on techniques and steps of hand washing. Children were also

oriented about when and how to wash their hands to minimize the cases of diarrhea and pneumonia.

Toilet Day was organized at Block level and the participant were children and communities learnt about importance of washing hand, Hygiene and bad effects of Open defecation. Total 432 children's teachers and community participated in the event.

Nav Jagriti organized Triggering exercise & Follow up visits using CLTS Approach in Uttimpur of Parsa Block of our operational area. Through triggering exercise tried to aware the communities about ill effects of open defecation. Hazards that it effects on the health. Open discussion about shit management helped to create disgust among the communities about open defecation. It left a deep impact on the communities about benefits of using toilets instead of open defecation.

Nav Jagriti Organized World Water Day on 22nd March at RVM Maker. 240 children played Nukkad natak, sang songs, Recited poetry. A painting competition was organized on occasion of world water day. Children tried to aware the community about the importance of water for future generation.

Demonstrations were conducted on repairing of hand pumps at above-mentioned locations. During the training, the handpump repairing toolkits were also distributed among the trainees.

I. Consultations and Meetings

Consultation on "The Ganga and Impact of Farakka Barrage"

A one day consultation on "The Ganga and Impact of Farakka Barrage" was held on 31st July 2014 at Bihar State Disaster Management Authority (BSDMA), Pant Bhawan, Patna. The purpose of this consultation was to discuss the long term and ramified impacts of Farraka Barrage and anticipated impacts of construction of proposed new barrages on the Ganga between Allahabad, Uttar Pradesh to Haldia, West Bengal. Social and environmental scientist, economist, engineers, representatives of Bihar State Disaster Management Authority (BSMDA), and Civil Society Organizations participated in the consultation. This assembly acknowledges to bring to notice before this country that due the Farakka barrage, the migration of fishes are clogged and there is stress on the biodiversity, both within the river and the basin which is it is detrimental to the interest of the country in the long run. The people adore the Ganga because of the quality of its water which is now deteriorating due obstruction in the flow of the Ganga. The barrage at Farakka has hindered the free flow of the river. As a result, the intense soil erosion has taken place in the upstream and downstream of the Ganga resulting in massive displacement of people and loss of their livelihood.

Nav Jagriti facilitated the field visit of VDMC members and staff members of EFFICOR on 17th Feb. 2015 in 2 villages' i.e. Rewara and Udaipur of Khanpur block, Samastipur. The visitor's team learned about the functioning of farmers club, DRR group. They also observed the mock drills of search and rescues etc. and visited to Disaster Management Centre of Nav Jagriti.
